

DEAUVILLE

Season: Late season
Main characteristic/s: Excellent yield potential for Spring and Autumn cropping
Breeder: Marionnet SAS, France

Characteristics of Deauville

- Beautiful bright red, glossy fruit.
- High fruit yields
- Good eating qualities
- Very good shelf life and firmness

Cropping Season

Deauville is a late season cropping variety

Fruit Quality

Deauville is a beautiful glossy bright red fruit. The berries are conical shaped, with a good flavour and size. They have a very good shelf life and firmness.

Fruit Yield

Adapted to double cropping. In trials Deauville showed excellent potential in the second cropping year, with over-wintered long canes producing a high yield and good berry size.

Plant Characteristics

Plants are strong, flowering at the top of canes.

Plant Supply

Deauville is protected under the EU PVR Grant No. EU 43221. The propagation and sale of plants, or parts of plants, of Deauville without a licence is prohibited. Deauville is available from the following licensed propagators:
